

The 'Push.To.Fit' System

▼ Contains Gripflex™ technology that holds inserts tightly in place.

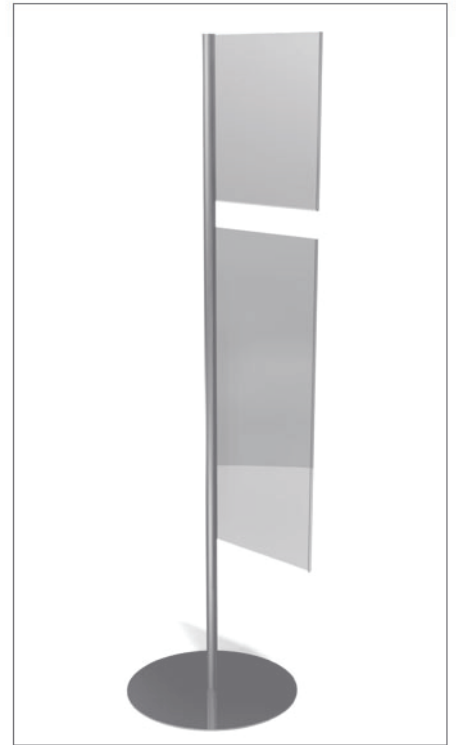

Simply 'Push To Fit' the graphic panels and accessories in the Gripflex™ slot. Image-N gives incredible flexibility to change and enhance your display.

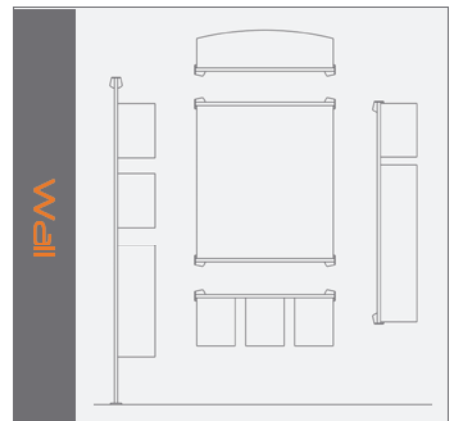

Image-N1 can be used in a huge number of applications both in window displays and in-store. It can be made into a free standing floor or counter display, or wall mounted, fitted floor to ceiling or ceiling hung. Standard fixing display accessories are available for you to use as required, see our website www.tagisystems.co.uk

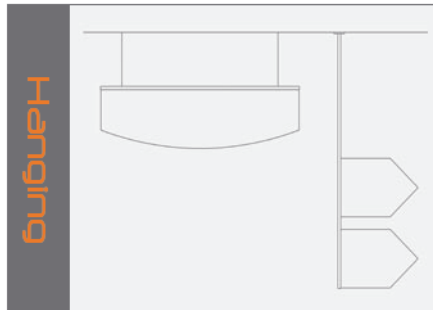

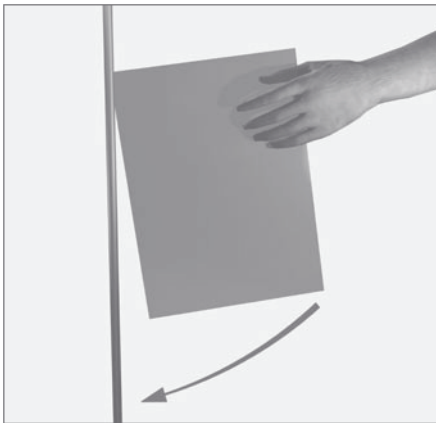

Round aluminium extrusion section 18mm in diameter with one Gripflex™ slot and one standard fixing slot.

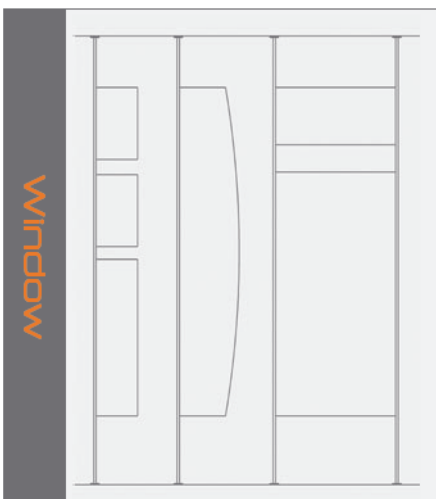

Simply 'Push.To.Fit' It couldn't be easier

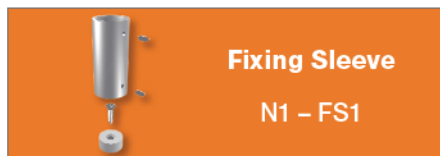

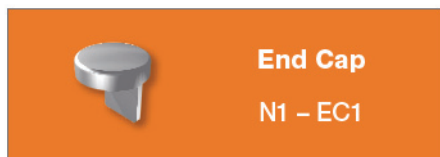

Defy the constraints of traditional systems and transform your signs and displays into powerful, comprehensive information and merchandising vehicles with Image-N.

With its incredible versatility, Image-N offers the ability to mix and match components for complete customisation. As your needs evolve, you can avoid costly sign and display replacement with its interchangeable accessories and updatable graphic options.

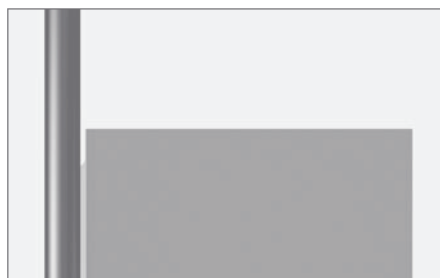

Accessories N1

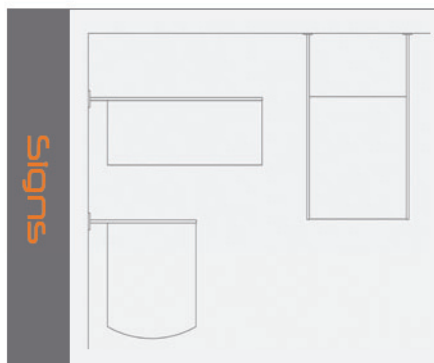

Standard Units

See our price list or website for standard configurations and prices or choose the components to your own requirements.

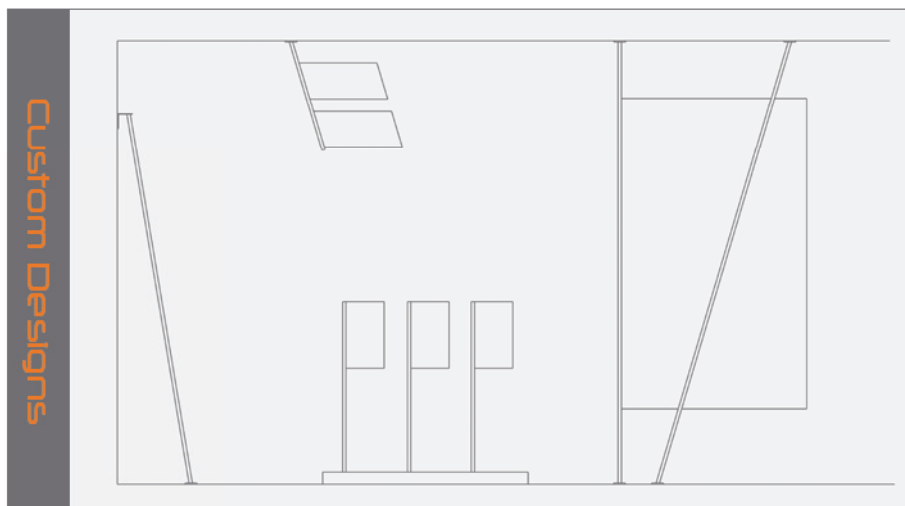

No visible fixings give Image-N a clean uncluttered design appearance.

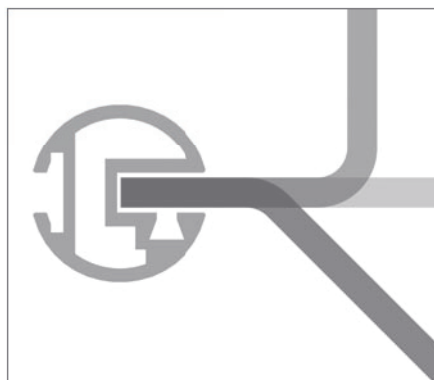

The 'Push.To.Fit' System

Just push the accessory into the slot and it's fixed, it couldn't be easier.

Applications + Uses

- Product Displays
- Announcement Boards
- Floor Directories
- Area Identification
- Menu Display
- Banner Display
- Counter Top Display
- Window Display
- Poster Display
- Directional Signs
- Literature Holders
- Digital Screen Holders
- Signs
- Point-Of-Sale

Because panels only need to be held at one side they can be angled to give more impact.

System Costs

Image-N is surprisingly affordable because costly accessory fittings are not required.

Should you require a specialised display, Tagi's design team can produce a custom design to meet your specific needs.
